

Welcome address by Mr. Andrey Y. Beliyaninov,
Secretary General of the Assembly of Peoples of Eurasia,
Chairman of the Organizing Committee

**To participants of “Eurasia EXPO: Art Crafts’2019”
International Exhibition**

Ladies and gentlemen, dear comrades, friends!

It is my pleasure to present to you our new exhibition project - ”Eurasia EXPO: Art crafts’2019” International Exhibition.

The organizer of the exhibition is “Assembly of the Peoples of Eurasia”, the International Union of Non-Governmental Organizations.

We attribute a great importance to this exhibition. In view of the fact that the Eurasian space is not only huge territory, not only the continent where the leading economies of the world are located, it also the place where the richest national cultures are concentrated. These cultures are so various, so individual, and, at the same time, are not really well familiar to the average representative of this or that Eurasian country.

And, therefore, we believe that the main aim of the exhibition is to provide our foreign and Russian guests with an opportunity to learn more about the richest material cultural heritage of the countries of Eurasia, to get them acquainted with numerous types of people art creativity, both ancient and modern, with a huge variety of the forms of arts and crafts, still existing in the countries of the Eurasian continent.

Besides, we consider that one of the most important task of our exhibition is to facilitate an efficient assistance of the federal and regional authorities in development of art crafts, rendering an effective help and support to the centers their production.

I wish to all participants and guests of the exhibition interesting meetings, new useful experience and a good luck!

Chairman of the Organizing Committee,
Secretary General of the Assembly of Peoples of Eurasia

Andrey Y. Beliyaninov
