

Welcome address by Mr. Andrey Y. Beliyaninov,
Secretary General of the Assembly of Peoples of Eurasia,
Chairman of the Organizing Committee

**To participants of «EURASIA EXPO: Transport
Routes'2018» International Exhibition**

Ladies and gentlemen, dear friends!

It is my pleasure to present to you our new exhibition project - "Eurasia EXPO: Transport Routes'2018" International Exhibition.

The organizer of the exhibition is "Assembly of the Peoples of Eurasia", the International Union of Non-Governmental Organizations.

Eurasia is the most extensive continent, covering 36% of the entire earth's surface. More than 70% of the world's population lives here and more than half of the world's GDP is created.

Distances stretching across Eurasia, amount to tens of thousands of kilometers. These distances are covered by transport routes of various categories, incl. automobile, aviation, sea and river, railway and pipeline. The countries of our continent and their peoples are vitally interested in being joined by complex and convenient transport corridors that would form for powerful sectors of national economies.

A number of Eurasian countries are implementing the largest transport and logistics projects and the site of "EURASIA-EXPO: Transport Corridors'2018" Exhibition will be a place for discussion of the most pressing problems of these mega-projects and projects implemented in bilateral and regional formats.

We invite companies and companies from the regions of Russia, the countries of the Eurasian Economic Union and Shanghai Cooperation Organization, the European Union, which are active in the field of road, sea, air transport and in the field of transport infrastructure.

We are waiting for you at "EURASIA-EXPO: Transport Routes'2018" International Exhibition!

Chairman of the Organizing Committee,
Secretary General of the Assembly of Peoples of Eurasia
